overview

make me furniture design and make handmade domestic class library ladders to enable you to access your home library or tall bookcase storage unit. We can manufacture static and rolling ladders to specific dimensions you require from various timbers such as American White Oak or English Black walnut, because our ladders are custom made you can choose whatever timber or finish which suits you best, from metal plated to sprayed bright pink. Utilising high grade timber including oak, walnut and ash, a mobile library ladder can become an addition to your living space and form a contemporary addition to your existing furniture.

We can supply traditional designed library ladders or a bespoke contemporary walk in wardrobe ladder using materials such as coloured melamine to give a funky twist – whether you need the ladder to roll on a fixing rail round a corner or a bespoke foldaway step ladder, we can help...

As well as modern oak library ladders, we can hand craft foldaway step stools to enable you to reach those high up storage areas within the house. Our ladders are supplied fully assembled direct to your door, handrails or rear rests are simply fixed using the bolt(s) provided.

our ladders CHOOSE YOUR STYLE

F-II-01 LADDER STYLE

our go to library ladder. lean-to, hook-on or rolling library ladder, fully customised options and the rear top rest design can take our range of handrails, locating pins or rolling kits.

F-II-02 LADDER STYLE

curved simplicity, demountable mezzanine ladder with integrated rear top rest in various materials to creating a wooden library ladder, various finishes including customer colour choices or specific stains.

F-II-03 LADDER STYLE

'kinked' library style ladder for tighter spaces with vertical upright to limit protrusion into interior space, add our rolling kits to create a rolling wardrobe ladder on a straight run or as a rolling closet ladder round a corner.

F-II-04 LADDER STYLE

bespoke metal ladder, lean-to hook on or rolling metal ladder in either stainless or mild steel plate finishes, specialist finishes include antique brass ladder, aged bronze ladder and endless other options.

our ladders

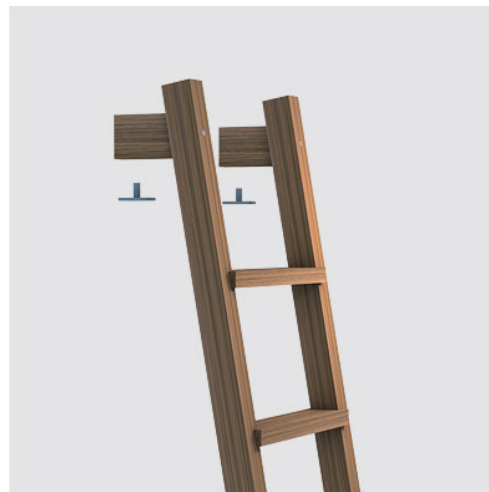

CHOOSE YOUR FUNCTION

LEAN-TO

available for all ladder styles.

- rear top rest library ladder design can take our range of handrails, locating pins or rolling kits.
- ladder uprights and base can have cork added for extra grip and to protect floor surfaces ideal for kitchen ladders.
- use with our range of storage hooks and stow your bespoke timber ladder away in another room if needed.
- see our 'finish' section for endless options available for all our library ladders.

MEZZANINE

available for F-II-01, F-II-02 & F-II-04

- rear top rest design uses our locating pins to enable removable support, pins are brushed stainless steel as standard, alternative finishes also available.
- mezzanine ladders can have cork added for extra grip and to protect floor surfaces
- utilise our handrail options in a range of finishes to complement your bespoke mezzanine ladder.
- see our 'finish' section for endless options available for all our mezzanine library ladders.

HOOK-ON

available for F-II-01, F-II-03 & f-II-04

- add hooks to the rear of your custom kitchen or pantry ladder in either matching timber or range of metal finishes.
- fixing rails for your rolling library ladder are in a range of metal finishes and with round or rectangular fixing brackets.
- use the same bespoke shelving ladder to reach different shelving units by simply hooking on and off.
- we can provide a second set of hooks on the ladder uprights to enable vertical ladder storage when not in use.

ROLLING

available for F-II-01, F-II-03 & f-II-04

- use with our rolling kits to have wheels to the top only, top and base or retracting rolling kits for a stowaway vertical rolling library ladder.
- single straight run rolling ladders or bespoke ladders going round 1 or more corners.
- fixing rails in a range of metal finishes and with round or rectangular fixing brackets so your library ladder can fix to tall shelving.
- fixing rails are supplied either as flat bar or round bar, the retracting kit is for round bar ladders only.

our ladders

CHOOSE YOUR HANDRAIL

STANDARD LOOP

various finishes available to suit your space

- 1170mm L standard length, made in house so alternative dimensions are no problem, just ask us for details.
- mild steel can be finished in a black painted finish twit top wax coat.
- additional plated finishes to mild steel include, chrome plating, antique bronzing and brass plating.
- use a single or double handrail on your library ladder, great for kitchen ladders where you're reaching for items with one hand.

LOOP WITH RETURN (STRAIGHT)

ideal for mezzanine ladder access

- 1800mm L as standard, made in-house enabling bespoke dimensions.
- handrail is brushed stainless steel as standard, multiple finishes also available.
- return section to handrail helps with mezzanine access as grab rail.
- separate 'grab rail' can be made to work alongside your mezzanine ladder.
- additional plated finishes to mild steel include, chrome plating, antique bronzing and brass plating.

LOOP WITH RETURN (ANGLED)

ideal for mezzanine ladder access

- 1800mm L as standard, made in-house enabling bespoke dimensions.
- handrail is brushed stainless steel as standard, multiple finishes also available.
- return section to handrail helps with mezzanine access as grab rail.
- separate 'grab rail' can be made to work alongside your mezzanine ladder.
- additional plated finishes to mild steel include, chrome plating, antique bronzing and brass plating.

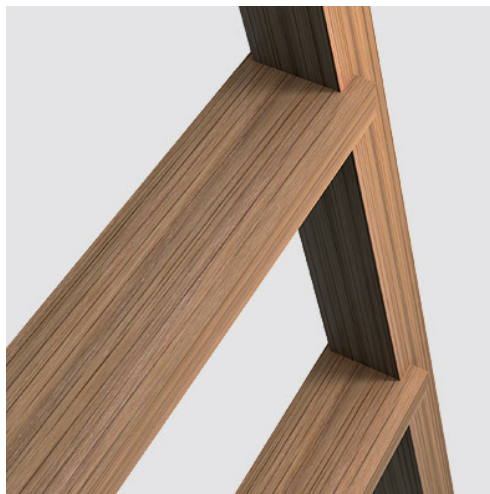

TIMBER EXTENSION

extends ladder upright to create handrail

- 700mm L standard extension length, all our ladders are made in house so alternative dimensions are no problem, just ask us for details.
- we can also supply separate 'grab rail' handrail to work alongside your mezzanine or bookcase ladder.
- handrail is using the same ladder upright material but extended.

our ladders

CHOOSE YOUR TREADS & GRIPS

STANDARD

390mm x 75mm x 28mm

- all treads are supplied in our standard size unless otherwise requested.
- treads can be supplied in different timber to ladder uprights whether uprights are timber or metal, ask for details.
- timber treads can be supplied in ash, oak, walnut, iroko, cherry, black walnut to name a few of our popular timbers, contact us if you have a specific request for your bespoke library ladder.

PADDLE TREAD

390mm x 140mm x 28mm

- paddle treads are right hand set to the base unless otherwise requested.
- paddle treads are alternated on their position to create more cover under foot when using your wooden library ladder.
- all treads are supplied in our standard size unless otherwise requested.
- treads can be supplied in different timber to ladder uprights whether uprights are timber or metal, ask for details.

SILICONE TREAD

- we use silicone insert beads to give additional grip under foot when using your bespoke rolling ladder
- silicone can be supplied in either clear, white or black to add minimal or contrasting detail to your ladder design.

CUSTOM TREAD

treads can be different to the main ladder, sprayed timber, antique bronze, brass - just let us know what you'd like.

CHOOSE YOUR MATERIAL & FINISH

make me furniture are passionate about furniture and try to ensure that our manufacturing limits damaging impact on the environment – read our sustainability statement to understand more.

The design team at make me furniture have years of experience in handmade one-off bespoke furniture pieces – we combine various metals and high grade timbers and acrylics to make your furniture.

Our designers have years of experience with library adders as well as designing bespoke furniture pieces including custom sideboards, dining tables and large mirrors. We specialise working with timber, metal, acrylic and plastics to design bespoke furniture. Use clear acrylic or Perspex furniture to give your interior a contemporary look without affecting the colour scheme, clear plastics nests of tables are ideal as a coffee table.

We love working with quality materials to create custom furniture designs – our range has varying lead times according to quantity, materials and the size of the pieces.

projects SOME EXAMPLES

about us

we are designers and makers who are passionate about designing bespoke furniture to meet your needs, working with timber, metal and acrylic we can either help you finalised your designs or come up with ideas for you.

Whether it's a bespoke oak dining table or an acrylic console table for your hallway we're here to help. We also specialise in metal and timber library ladders, from top and base rolling ladders for high shelving to bespoke step ladders, take a look at our product information pages to see how we can help you with your interior space.

our products

at make me furniture we have a varied workload from children's bed decks to side tables, large bespoke sideboard units to custom made rolling ladders for high end commercial restaurants.

We have completed bespoke furniture projects for a range of clients in the UK and overseas, our custom made furniture can easily be exported worldwide.

Our furniture can be tailor made to suit any interior, take a look at our projects page to see the variety and quality of our work...

our process

once you've looked through the website and decided on your specification for your library ladder, bespoke sideboard, coffee table or any other item get in touch, if you have photos of the space you are looking to have your bespoke furniture positioned then email it over to help us work with you.

If you have specific space requirements for your mezzanine or library ladder or any other bespoke furniture piece then have them to hand as this will make it easier for us to get you the help you need.

We can also create 3D visuals of your design prior to ordering and pride ourselves on accurate photo realistic images.

All orders are provided with a signoff CAD drawing which we send to you to check against your space requirements. We can also come out to do site measures subject to location.
